

Take a walk on the clean side

– Automatic scrubbers designed to push productivity

Floor cleaning will be a walk in the park

The Viper AS5160 are highly productive walk-behind automatic scrubbers with battery and tank capacity to clean for hours. With a working width of 20 inches and a tank capacity of 16 gallons these machines will get the job done fast and easy. The machines are well balanced and easy to maneuver thanks to large main wheels and strong supporting casters.

For intensive cleaning or maintaining large coated floor areas, the AS5160TO with an orbital scrub deck ensures multi directional cleaning performance with low solution

and detergent consumption, and the rectangular deck allows easy access to corners.

- High capacity 16 gallon solution and recovery tanks
- On-board charger for convenient battery charging
- Safety switches built into the handle
- Disc version available with or without traction motor
- Orbital version offers water and detergent savings, with traction drive, and automatic raising and lowering of the scrub deck

Control panel with intuitive display

Water level indicator

Efficient orbital scrub deck for intensive cleaning or floor coat stripping
